

# Success Story: Advanced Infection Prevention and Control Training

InceptionXR supports effective lives safeguarding through our Nurse Training and Assessment solution. The project focused on reducing HAIs (Hospital Acquired Infections) and enhancing IPC (Infection and Control Practices) practices, our immersive simulations ensured comprehensive corporate training, delivering measurable outcomes and fostering a culture of excellence in patient care.

## Effective Training With Positive Feedback

## Why InceptionXR?

Since our establishment in 2016, Inception has been at the forefront of XR-based learning, driven by a vision to redefine education and training through immersive experiences. InceptionXR is the best choice as a partner for VR training as:

- Extraordinary team of cognitive scientists, content creators, programmers and XR learning specialists
- Largest AR and VR content pool produced in the industry
- Best-in-class simulation platform
- Proven track record with leading global enterprises

## Emergency Dept. Nurse

//

It was amazing. It was the most realistic educational I have ever done.

It has a lot of potential. I like it.
